

## Junior System Engineer - Global Cloud Services (f/m/d)

We are looking for a Junior System Engineer (f/m/d) to join our Global Cloud Services team.

### Your mission:

- Building a secure, scalable and automated AWS and GCP base setup for hundreds of AWS accounts and GCP projects, used by hundreds of engineers in the group.
- Helping to maintain globally used SaaS services and tools, for example for log analysis, secrets management, DNS management, and monitoring.
- Connecting teams to enable knowledge sharing and help foster our global infrastructure community.
- Creating visibility for tech KPIs and cloud cost.
- Support for implementing and rolling out project plans to make our cloud environments more secure and manageable.
- Working on IT Security and Compliance related topics, for example to integrate our company SSO solution with SaaS tools that our tech teams use.

### Your heroic skills:

- You thrive in a rapidly evolving, globally distributed environment.
- You enjoy working with others – to collaborate, teach, mentor, and influence across teams worldwide.
- Ability to communicate clearly, to discuss, explain and convince, and you are humble enough to also listen well.
- DevOps mentality and a strong belief that real problems can only be solved by working across silos, teams, and skill sets.
- Basic understanding of UNIX like operating systems and networking.
- Being comfortable working on the Terminal / Shell.
- First experiences with cloud infrastructure on AWS or GCP as well as using Infrastructure as Code tools (e.g. Terraform, Ansible, SaltStack), and knowledge of one or more programming or scripting languages (e.g. Go, Python, Bash) would be a plus.
- Knowledge in containers and orchestration tools (Kubernetes, docker, EKS, etc); automation with e.g. Helm would be a bonus.

### Why Delivery Hero?

- Develop your skills with your educational budget for conferences and external trainings.
- Exchange ideas and meet fellow developers at regular meetups, in our active guilds and during our Developer Exchange Program.
- Join company parties, hackathons, cultural and sports events.
- Enjoy massages, get your haircut in the office, join our free yoga classes or take a timeout in our nap room.
